Seeing is believing. Visual backup displays your content in categories and shows the progress of your backup.

Relax. Your data is secure. Automatic, continuous backup will instantly make a second copy whenever you add or change a file.

Bring back lost files effortlessly

Retrieve your valuable data to its original location whether you've lost all your data or just overwritten an important file.

Take control

Customize your backup, set drive security, run diagnostics, manage the power settings, and more from the WD SmartWare control center.

Visual backup displays your content categories and confirms that your files have been backed up.

Smart display

Create your own personalized drive label to remind you what's stored on each drive. You can even view the label when the drive is unplugged. The display also includes available capacity and security status.

Gain peace of mind knowing that your data is protected from unauthorized access or theft with password protection and 256-bit hardware-based encryption.

Streamlined design

We've made these award-winning drives even smaller, sleeker, and more elegant.

USB 2.0 interface

A simple connection that offers convenience and compatibility among multiple computers.

Power miser

My Book external drives are designed to save energy. WD GreenPower Technology™ lowers internal drive power consumption by up to 30%; a sleep mode reduces power during idle times, and a power-saving feature turns the drive on and off with your computer.

Planet friendly

We designed a small retail box from recycled materials to minimize waste. We encourage you to recycle it.
