

Proper Handling of WD Hard Drives

1

Handle with care at all times, including returns.

2

Do not drop the drive.

3

Do not stack the drives.

4

Always place the drive on an ESD-safe surface.

5

Wear properly maintained ESD protection.

6

Open the anti-static bag in an ESD-safe environment.

7

Avoid use of excessive force when mounting the drive in the bay.

8

Use care when connecting or disconnecting cables to avoid damage to the connectors.
