My Book® Studio™ II
Dual-drive storage system

Fast, green, and Mac®-ready.

Fast FireWire® 800 interface
Compatible with Apple® Time Machine®
RAID-enabled

This dual-drive external storage system is formatted for Mac and offers up to 6 TB of storage for all the graphics-intensive files of creative professionals. It features the speed of RAID 0 (Striped) and a FireWire 800 interface, as well as the flexibility of eSATA and USB 2.0 interfaces.
The speed you need
Lightning-fast FireWire 800 combined with RAID 0 (striped) yields the speed you need for smooth video editing, rendering complex 3D objects or special effects, and saving huge blocks of data in record time.

Cool, quiet, eco-friendly
Designed to use drives with WD GreenPower Technology™, this system uses less energy than standard systems and runs quietly because it doesn’t need a fan.

Formatted for Mac
Works out of the box with Apple Time Machine software. This drive can be reformatted for Windows®.

Automatic backup software
Back up important files and projects. Set it and forget it. Every time you save or change a file it’s automatically backed up.

User serviceable
Want to upgrade a drive? Simply open the case and replace the existing drive. No screwdriver needed.

Capacity gauge
See at a glance how much space is available on your storage system.

As used for storage capacity, one gigabyte (GB) = one billion bytes, and one terabyte (TB) = one trillion bytes. Total accessible capacity varies depending on operating environment. As used for transfer rate or interface, megabyte per second (MB/s) = one million bytes per second, and gigabit per second (Gb/s) = one billion bits per second.
